The WHO is attempting to negotiate away the sovereignty of the 194 member nations along two separate, but parallel tracks. Everyone on earth needs to pay attention RIGHT NOW, before it is too late.

by James Roguski on Sept 3, 2022, [LINK](#)

To my readers:

The WHO is trying to take control of every aspect of your life. This article is my heartfelt effort to alert you to that reality. I realize that this is a VERY long article. Please take the time to read it. You need to know what the WHO is doing.

STOP THE SECRET WHO NEGOTIATIONS

NO Pandemic Treaty
NO Amendments to the International Health Regulations
NO Power for the WHO
NO Money for the WHO
MAINTAIN National Sovereignty
RESTORE Personal Freedoms

STOP THIS BLATANT POWER GRAB

PROTECT OUR SOVEREIGNTY
Stop the Secret Negotiations with the World Health Organization.

The World Health Organization (WHO) is conducting secret negotiations that are designed to give the WHO more legal authority over every aspect of health on earth. They are attempting to gain totalitarian control by getting our delegates to surrender our personal freedoms and our national sovereignty along two separate tracks:

1. A proposed, legally binding international "Pandemic Treaty"
2. Legally binding amendments to the International Health Regulations

The most important thing that people around the world can do is to help spread the word in order to raise awareness that these negotiations are happening RIGHT NOW. Visit the website below, and invite everyone you know to learn more in order to stop these secret negotiations.

This article is to alert the world about the negotiations that are going on right now between the World Health Organization and delegates from nations around the world.

The delegates from all 194 member nations are busy working on plans to give more power and control to the World Health Organization at the expense of your national and personal sovereignty, bodily autonomy, personal privacy, inalienable rights and fundamental freedoms.

The delegates are being manipulated into surrendering your personal freedoms and our national sovereignty over to the WHO.

I am very concerned about the actions of our delegates to the World Health Organization and I demand that these negotiations be stopped immediately.

I also demand that the names of the people who have been legally authorized to conduct these negotiations, and the extent of their authorization, be revealed publicly.

These negotiations are so well hidden that it is highly likely that you have no idea who your nation's delegates to the World Health Assembly even are.

These secret negotiations are being conducted along two parallel tracks:

TRACK 1:

The WHO is attempting to negotiate a legally binding international "Pandemic Treaty" which could usurp national sovereignty and restrict our personal freedoms. The delegates from every nation have been instructed by the WHO to submit their written proposals to the Intergovernmental Negotiating Body by September 15, 2022.

TRACK 2:

At the same time, the WHO has set up a Working Group for amendments to the International Health Regulations (WGIHR). The International Health Regulations are an existing body of international law that are legally binding upon all member nations, and any amendments to the IHR would also be legally binding. Delegates from every member nation have been instructed by the WHO to submit their written proposals by September 30, 2022.

TRACK 1: "Pandemic Treaty"

From now until September 15, 2022, delegates from all 194 member nations of the World Health Organization are in the process of submitting their proposals for consideration in the "conceptual zero draft" of the "Pandemic Treaty."

The Intergovernmental Negotiating Body (INB) plans to compile these secret submissions into what they refer to as a "conceptual zero draft." They then

plan to secretly circulate this "conceptual zero draft" amongst the member nations in mid-November, 2022 in advance of the third meeting of the Intergovernmental Negotiating Body on December 5-7, 2022.

TRACK 2: Amendments to the IHR

This track is exceedingly secretive.

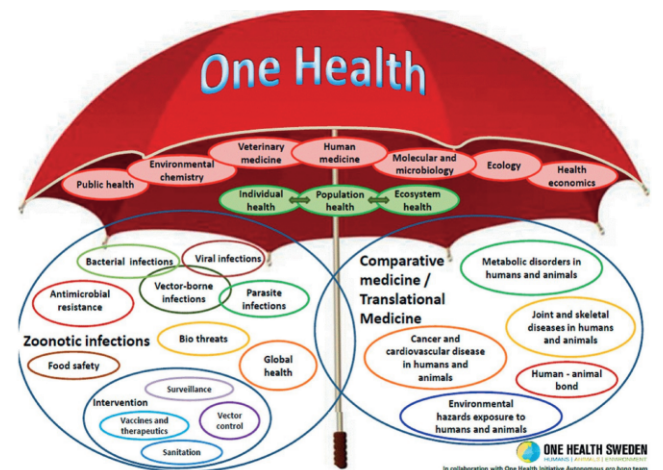

From now until September 30, 2022, delegates from all 194 member nations of the World Health Organization are in the process of submitting their proposals for amendments to the International Health Regulations prior to the first meeting of the Working Group for Amendments to the International Health Regulations (WGIHR).

The first meeting of the WGIHR has not been formally scheduled. It should occur some time before November 15, 2022.

TRACK 1:

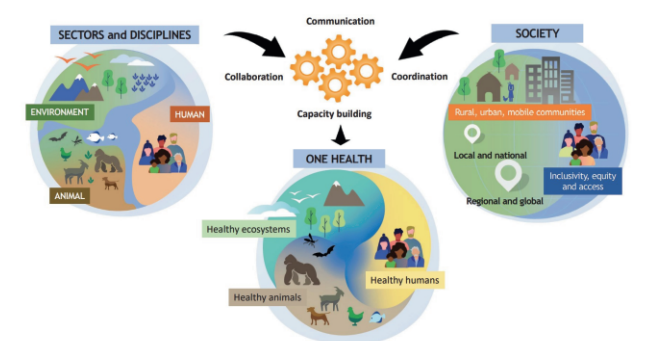

The "Pandemic Treaty" (Convention, Agreement, International Instrument)

The World Health Organization is seeking to implement their "One Health" agenda with a "whole-of-government" and a "whole-of-society" approach.

Definition of One Health (OHHLEP 2021)

One Health is an integrated, unifying approach that aims to sustainably balance and optimize the health of people, animals and ecosystems, it recognizes the health of humans, domestic and wild animals, plants, and the wider environment (including ecosystems) are closely linked and inter-dependent. The approach mobilizes multiple sectors, disciplines and communities at varying levels of society to work together to foster well-being and tackle threats to health and ecosystems while addressing the collective need for clean water, energy and air, safe and nutritious food, taking action on climate change, and contributing to sustainable development.

10 Excerpts from the July 13, 2022 Working Draft of the World Health Organization's "Pandemic Treaty"

"Equity should remain as a principle, an indicator and an outcome of pandemic prevention, preparedness and response." (page 3)

"Support, through national legislative or executive processes or procedures, measures that promote effective and transparent implementation and monitoring of this WHO CAII." (page 9)

"Enhancing WHO's central role as the directing and coordinating authority on international health work." (page 12)

"Promote a comprehensive One Health approach, promoting coherence among all relevant actors, instruments, initiatives and issues, such as climate change." (page 13)

"Ensure that actions at national and community levels encompass whole-of-government and whole-of-society perspectives." (page 13)

"Strengthen... regulatory authority capacities to accelerate the process of licensing and approving pandemic response products for emergency use in a timely manner." (page 15)

"Regularly conduct simulation exercises." (page 16)

"Manage public information, risk communication and infodemics through effective channels, including social media." (page 16)

"Conduct regular social media listening in order to identify misinformation and so to design communications and messaging to the public and counteract misinformation, disinformation and false news." (page 16)

"It would be expected that the governance mechanism would be based in WHO, and supported by the WHO Secretariat. The functions of the governance mechanism could include, without limitation... to govern the implementation, functioning, sustainable building and progressive development of capacities, norms and obligations after adoption of the WHO CAII. [aka: Pandemic Treaty]" (page 17)
