

OPERATION TURKEY TREMBLORS: Hard evidence points to same powerful DEW geo-weapons DARPA used to trigger the devastating 2010 Haiti earthquake

*ZOG Earthquake Weaponry Strategically Inflicts Overwhelming Catastrophic Damage Across South-Central Turkey and Syria—Whodunit & Why?

*ZOG = Zionist Occupied Government such as those which currently rule the United States, United Kingdom and the State of Israel

SOTN Editor's Note: The videos in the article linked at the bottom of this post reveal the sheer enormity and gravity of the immense back-to-back earthquake and aftershock that just struck Turkey and Syria in the red areas shown above.

Because of its highly geostrategic location, there is no doubt that these 7.5 and 7.8 quakes were triggered by highly advanced earthquake weaponry which only very few countries possess.

What that really means is that all the usual suspects — US, UK & Israel — are the most likely perpetrators. How so? Because when the \$64,000 question is asked — “Cui bono?” — those three geoterrorist states always come up first, second and third— THAT’S WHY!

SCIENTIFIC RESEARCH PAPER: Super Energy Weapons, Triggering Earthquakes, Volcanoes and, Other Earth Movements, [LINK](#)

The unusually widespread and extraordinary degree of destruction wrought by these earthquakes serves as the first major clues proving that this was yet another barbaric act of Zio-Anglo-American geoterrorism. But why? There are actually many reasons why the *Axis of Evil* is hellbent on bringing Turkey to its knees. As follows:

- Turkey has refused to permit Sweden (and Finland) into NATO pending the outcome of the “harboring terrorists” issue
- Turkey has been working closely with Russia, Syria and Iran to permanently resolve the US-sponsored forever war in Syria
- Turkey has been collaborating with Russia all along to help negotiate a peace treaty with Ukraine
- Turkey’s territory has become Russia’s Plan B where it concerns natural gas pipelines that were once operative in Ukraine, as well as presenting an alternative to the destroyed Nord Stream pipelines
- Turkey has made major purchases of armaments from Russia including the S-400 air defense system against the strict demands of the United States

- Turkey has been in an intensifying cold war with fellow NATO member Greece which is viewed as highly disruptive to the central mission of the *North Atlantic Terrorist Organization*
- Turkey has also recently attacked the Syrian Kurds who are considered the U.S. partner in the fake fight against ISIS (Israeli Secret Intelligence Service)
- Turkey was targeted by the Zio-Anglo-American Axis just last week with economic sabotage after the US and several European nations shut down their consulates in Istanbul after falsely warning of terrorist attacks
- Turkey’s Interior Minister recently lambasted US ambassador Jeffrey Flake, accused Washington of “working to hurt his country” and incriminated the Western nations for waging “psychological warfare” to undermine tourism in Türkiye, all just 3 days prior to this transparently vengeful geoterrorist attack.

UNPRECEDENTED!

Turkish Interior Minister Suleyman Soylu Slams the US, UK and EU just 3 days before the devastating artificially triggered earthquakes, [LINK](#)

These are just a few of the reasons why the *Axis of Evil* is quite unhappy with Turkey. There are, in fact, several other motives for this cataclysmic geoterrorist attack which are well beyond the scope of this brief report. Hopefully the entire world community of nations will finally put two and two together in the aftermath of this transparently manufactured calamity and understand that earthquake weapons are very real and extremely powerful and will be utilized on any rogue client state.

Bottom Line: Every massive tremor has its own energetic signatures which reveal the true cause of the immense and momentary release of energy that defines a natural earthquake over 7.0 on the Richter Scale. In light of the highly sophisticated diagnostic devices and advanced technologies which measure and analyze seismological movements, the man-made nature of these quakes will soon be confirmed. When the Kahramanmaraş earthquake data is fully examined by objective seismologists and competent geologists worldwide, these enormous manufactured tremors will be exposed as an artificially-induced event distinguished by their manmade seismological signatures.

KEY POINTS: Artificially induced earthquakes via DEW geoweapons have been perpetrated by the Western powers over decades. “All the earthquake experts say that with such a large earthquake of almost 8.0 on the Richter scale, these two tremblors were unusually shallow at a depth of only 10 km. Earthquakes of that magnitude usually occur at a depth of at least 30 km. In addition, a pair of large earthquakes of 7.8 and 7.5 in such a short time is also a rare phenomenon. Moreover, huge flashes in the sky were seen by many just before the earthquake. They especially lit up a large part of the sky in that specific area just before the first 7.8 earthquake.” [Quote Aeronet News, LINK.](#)

A one-two punch geo-weapon strategy was utilized with great precision to first unsettle the foundations of every building in a very large area via the first earthquake which was then followed by a second major earthquake (not just an aftershock) to bring those structures down into their own footprints. Furthermore, this exceedingly heinous act of geoterrorism was executed at 04:17 TRT in the early morning to bring about maximum number of deaths which it has surely done.

As always, the video footage and photos in the post below tell a story which can only be conveyed by clue-laden pictures. For example, the large flocks of agitated birds in the video that follows were clearly trying to tell the local population something is very wrong. Yes, animals always act strange and leave the area before an earthquake but perhaps these birds were being adversely impacted by the super-energy weapons just prior to these 2 big earthquakes in Turkey.

In Turkey, strange behavior was observed in birds just before the earthquake, [LINK](#)

List of countries that pulled their ambassadors out of Turkey 24 hours before the earthquake.

- ✓ Canada
- ✓ USA
- ✓ Britain
- ✓ Germany
- ✓ Belgium
- ✓ Italy
- ✓ Holland
- ✓ France

Nothing suspicious here...?/?...

MARTY, WHATEVER HAPPENS
